DOCKET FILE COPY ORIGINAL
FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

In the Matter of)
)
Amendment of Section 73.202(b))
Table of Assignments)
FM Broadcast Stations)
(Cut and Shoot, Texas))

File No. RM-_____

To: The Commission

PETITION FOR RULEMAKING

Ben W. Walker ("Walker"), a prospective applicant for a new FM broadcast station at Cut and Shoot, Texas, hereby requests the Commission to institute a rulemaking proceeding for the amendment of Section 73.202(b) of the Rules to make the following changes:

<u>City and State</u>	<u>Present</u>	<u>Proposed</u>
Cut and Shoot, Texas	—	235A

The attached FM Spacing Study (Attachment A) establishes that Channel 235A can be assigned to Cut and Shoot under the Commission's rules. The assignment would present no siting

No. of Copies rec'd 014
List A B C D E
MMB

problems and at the reference point listed all required separations are fully met.¹ Additionally, a station operating at this reference point will provide city-grade coverage to all of Cut and Shoot.

The proposed assignment would provide Cut and Shoot, a community of 908 persons (1990 US Census), its first broadcast transmission service.

Walker will expeditiously apply for operation on Channel 235A, if allocated to Cut and Shoot, and if granted, will promptly build the proposed FM broadcast station.

Washington, D.C. 20037

March 5, 1999

¹The study notes that the proposed allocation is short-spaced to the licensed Class C facilities of Station KYKR, Beaumont, Texas but not to the Class C1 KYKR facilities authorized by Construction Permit BPH-9801011C. A license application for the Class C1 facilities was filed on February 25, 1999 (File No. BLH-990225KB) and KYKR presently is operating with these facilities. Accordingly, the KYKR authorized facilities are those specified in the license application.
